

# 1806182 - ESS LEA: No (error) messages in ESS Leave Request

Version	4	Typ	Artikel der SAP Wissensdatenbank
Sprache	Englisch	Originalsprache	Englisch
Freigabestatus	Released to Customer	Kategorie	How-to
Komponente	PT-RC-UI-XS (Self Services Web Dynpro) Freigegeben am 21.03.2013		

Please find the original document at <https://launchpad.support.sap.com/#/notes/1806182>

## Symptom

The ESS Leave Request is not raising any (error) messages anymore.

## Umgebung

Packages higher than:

EA-HRRXX 600 SAPK-60089INEAHRRXX  
 EA-HRRXX 602 SAPK-60268INEAHRRXX  
 EA-HRRXX 603 SAPK-60363INEAHRRXX  
 EA-HRRXX 604 SAPK-60455INEAHRRXX  
 EA-HRRXX 605 SAPK-60532INEAHRRXX  
 EA-HRRXX 606 SAPK-60617INEAHRRXX  
 EA-HRRXX 607 SAPK-60702INEAHRRXX

## Problem reproduzieren

Trying to send, approver or post a leave request.

## Ursache

The reason for this is that SAP Note [1732458](#) has extended the functions in this area. This has been done via a new BADI method (PROCESS\_MESSAGES). There is a new standard coding in the related fall back class. This coding is missing in your own exit.

## Lösung

1. Check your exit PT\_ABS\_REQ.
2. The standard implementation from

Class	CL_PT_ARQ_REQ_EXIT
Method	IF_EX_PT_ABS_REQ~PROCESS_MESSAGES

need to be copied into your customer exit.
